CEO and President's Letter to Shareholders

Dear Shareholder,

Successfully exploring and bringing discoveries from our portfolio

Since we embarked on exploring the Tethyan belt in 2012, our focus on partnering with mining industry leaders on portions of our portfolio, maintaining a long term view on gold and copper cycles, and the goal of building value for all stakeholders through discovery have been the core drivers of our business decisions. We abide by the belief that building a business for the long-term requires patience and dedication, and that measuring performance goes well beyond one drill hole or the balance sheet.

Mundoro's exploration results in the Timok Magmatic Complex in Serbia attracted a number of interested major copper companies such that in 2016, we granted an earn-in option on four of Mundoro's exploration licenses: Borsko Jezero, Dubrava, Padina and Zeleznik (the "Timok North Projects") in Serbia to the Japanese Oil and Gas Metals Economic Corporation (JOGMEC). We are very pleased to continue our partnership with JOGMEC for Year 3 of Phase 1 of the Earn-in for the Timok North Projects. The joint venture with JOGMEC has successfully drill tested two porphyry systems in the southern portion of the Zeleznik license and in the Borsko license identified undercover mineralization at Target 1 that is indicative of high sulphidation style mineralization. The Year 3 exploration program will continue with a focus on geophysics and drilling. In Bulgaria we bid on a public tender for the Svoboda concession area which we believe demonstrates another opportunity for the company to use its experience in the district to explore another land package that has potential for further copper and gold high sulphidation and porphyry style deposits.

Prudent budget planning for future success

Integral to shareholder confidence is the ability to remain a well-funded company that can execute on its exploration strategy and provide continued opportunities for shareholders to attain returns on their investment.

With continued volatility in commodity prices, we believe that maintaining financial flexibility to sustain and, where opportunities arise, grow our business, dictates our capital spending decisions and compensation policies. We ended the year with approximately \$5 million in cash, cash equivalents and term deposits, no debt, and a maintained the reduction in director fees and CEO compensation that we initiated in January 2016. Looking at the year ahead, we remain disciplined and prudent in expenditures and prioritizing our growth.

Our future

The dedicated team, organic exploration potential in a prolific mineral belt, financial stability, and no-debt all combine to form the basis of sustainable growth for Mundoro. Understanding the cyclical nature of our industry, we remain prudent and continue to focus on delivering long-term, sustainable value to our shareholders.

I would like to sincerely thank our team for their continued hard work, collaboration and dedication to the vision that has built Mundoro.

Yours sincerely,

Teo Dechev
CEO and President, Director
Mundoro Capital Inc.

PARTICULARS OF MATTERS TO BE ACTED UPON AT THE MEETING

We will cover five (5) items of business at the Meeting:

Management and the Board of Directors of Mundoro (the “**Board**”) have made recommendations about how to vote your common shares (“**Shares**”). See below for more details.

1. Receive the audited consolidated financial statements of the Company for the financial year-ended December 31, 2017.

The audited consolidated financial statements for the year-ended December 31, 2017, along with management’s discussion and analysis (MD&A) for the same period, as well as the auditor’s report (together the “**Year-End Financial Statements**”) are available on our website at www.mundoro.com and under the Company’s profile on SEDAR at www.sedar.com.

The Board has approved the Year-End Financial Statements of the Company, and the auditor’s report thereon, which will be presented at the Meeting. No approval or other action needs to be taken at the Meeting in respect of these documents.

2. Set the number of Directors to four (4)

Subject to shareholder approval, the Board has determined to set the number of directors of the Company at four (4).

Voting Recommendation:

The Board unanimously recommends that shareholders vote “**FOR**” setting the number of director at four (4).

In the absence of contrary instructions, the persons named in the enclosed form of proxy intend to vote FOR the setting of the number of directors at four (4).

3. Election of Directors

The directors nominated by the Board for 2017 are:

John Hoey
Teo Dechev
Michael Calyniuk
Graham Brown

Each of the nominated directors is well qualified to serve on our Board and has expressed his/her willingness to do so. The directors of the Company (the “**Directors**”) are elected annually and each person will hold office until the next annual general meeting of the Company or until their successors are duly appointed or elected.

Information about the proposed nominees for election as Directors, all positions and offices in the Company presently held by such nominees, the nominees’ municipality and country of residence, principal occupation at present and during the preceding five years (unless shown in a previous management information circular), the period during which the nominee has served as a Director, and the number of securities of the Company that the

nominee has advised are beneficially owned, controlled or directed, by the nominee as of April 19, 2018 is given under *Board of Directors*.

Voting Recommendation:

The Board unanimously recommends that the shareholders elect each of the Directors nominated by management of the Company by voting “**FOR**” each nominee.

In the absence of contrary instructions, the persons named in the enclosed form of proxy intend to vote FOR the election of the above four (4) proposed Director nominees.

4. Appointment and Remuneration of Auditors

The Board, on the recommendation of the Audit Committee, has recommended that PricewaterhouseCoopers LLP (“**PwC**”), Chartered Professional Accountants, of Vancouver, British Columbia be re-appointed as the independent auditor (the “**Auditor**”) and serve until the end of the Company’s 2019 annual meeting. PwC was first appointed as the Company’s Auditor as of 2014.

You will vote on the proposal to re-appoint PwC as the Company’s Auditor and authorizing the Board to set the Auditor’s remuneration for 2018.

Voting Recommendation:

The Board unanimously recommends that shareholders approve the proposal to re-appoint PwC as Auditor until the next annual meeting of shareholders of the Company or until its successor is appointed, and to authorize the Directors to determine the Auditor’s remuneration.

In the absence of contrary instructions, the persons named in the enclosed form of proxy intend to vote FOR the proposal to re-appoint the Auditor until the next annual meeting of the Company or until its successor is appointed and to authorize the Directors to set the Auditor’s remuneration.

5. Adoption and Approval of 2018 Stock Option Plan

The Company’s currently stock option plan was approved by the Shareholders on May 27, 2011 (the “**2011 Stock Option Plan**”). The 2011 Stock Option Plan allows the Company to issue options that upon exercise will be less than or equivalent to the lesser of (a) a rolling number of common shares equal to 10% of the total issued and outstanding common shares of the Company from time to time; and (b) 5,000,000 common shares.

The purpose of the 2011 Option Plan is to advance the interests of the Company by encouraging the directors, officers, employees, consultants and management company employees of the Company to acquire Shares in the Company, thereby increasing their proprietary interest in the Company, encouraging them to remain associated with the Company and furnishing them with additional incentive in their efforts on behalf of the Company in the conduct of their affairs.

As at the date of this Information Circular, a total of 4,402,500 options, representing 6.35% of the Shares of the Company (and 88% of the Plan reserve) have been granted. There are 597,500 options available for grant under the 2011 Stock Option Plan.

In order to keep current with industry practice and compete with other resource companies to attract and retain employees, officers, consultants and directors, the Board has determined that the Company has insufficient options available to meet the objectives of the Company’s compensation program, which is to use both annual salaries and incentive plan awards to attract and retain employees, officers, consultants and directors.

The Board passed a resolution on April 16, 2018 to adopt the 2018 Option Plan whereby the maximum number of shares that may be issued is a rolling number of Shares equal to 10% of the total issued and outstanding common shares of the Company at the time of grant, thereby removing the limitation of 5,000,000 common shares under the 2011 Option Plan. Pursuant to the 2018 Option Plan, a maximum of 6,932,402 options could be granted as of the date of this Information Circular.

Terms of the 2018 Option Plan

Eligible Participants

Persons eligible to participate are directors, officers, employees and consultants of the Company and persons employed by an entity providing management services to the Company (an “**Optionee**”).

Maximum Number of Shares

The maximum aggregate number of Shares which may be reserved for issuance is a rolling number equal to 10% of the issued and outstanding Shares from time to time.

Maximum Percentage of Shares to Any Individual

The maximum number of Shares which may be reserved for issuance to any one Optionee under the 2018 Option Plan within a 12 month period is 5% of the Shares outstanding at the time of the grant (calculated on a non-diluted basis) and 2% with respect to any one consultant of the Company. The aggregate number of options granted to persons retained to provide investor relations activities must not exceed 2% of the issued shares of the Company in any 12 month period, calculated at the date an option is granted to any such person.

Exercise Price

The exercise price of an option is determined by the Board of Directors when the option is granted but shall not be less than the closing market price of the Shares on the TSX Venture Exchange (the “**Exchange**”) on the last market trading day of the Shares prior to the grant of the option, less any applicable discount permitted by the policies of the Exchange.

Vesting

Options vest as the Board determines, in its discretion, subject to the required vesting provisions for persons providing investor relations activities, which options must vest in stages over a period of not less than 12 months with no more than 1/4 of the options vesting in any three month period.

Term of Options

Options expire on the expiration date set forth in the option certificate, as determined by the Board, and must be exercised, if at all, on or before the expiration date. Subject to an extension during a black-out period as described herein, in no event will the expiration date be more than ten years after the date of grant. If at any time the expiry of the term of an option should be determined to occur during a black-out period or within ten business days following such a period, such expiration date shall be deemed to be the date that is the tenth trading day following the date of expiry of such restriction.

Termination on Death or Disability, Termination for Cause or Voluntary Resignation of Optionee

Notwithstanding the exercise period set forth in an option certificate, exercise of options is subject to the following: (a) in the event of the death or disability of an Optionee at any time during the term of an option held by that individual, the option may be exercised within six months after the date of death or disability of the Optionee by the Optionee’s legal personal representative up to such maximum number of optioned Shares which the

Optionee was entitled to exercise at the date of his or her death, but in no event will the option be exercised beyond the expiration date set forth in the option at the time of its grant; (b) in the event of the termination of employment of an Optionee as a result of “termination for cause” any options outstanding on the date of termination, whether vested or not, shall be cancelled as of that date; and (c) in the event of the early retirement, voluntary resolution or termination other than for cause of an Optionee at any time during the term of an option, the rights to purchase Shares under the option which have vested to the Optionee and remain unexercised at, or which accrue subsequent to, such date shall be exercisable by the Optionee by the earlier of (i) the expiry date; and (ii) the date that is 60 days (30 days if the Optionee was engaged in investor relations activities) after the Optionee ceases to be an eligible person.

Assignability of Options

Options granted under the 2018 Option Plan may not be transferred or assigned in any manner other than by will or by the applicable laws of descent.

Adjustment of Option Price and Number of Option Shares

Whenever the Company issues Shares to all or substantially all holders of Shares by way of a stock dividend or other distribution, or subdivides all outstanding Shares into a greater number of Shares, or combines or consolidates all outstanding Shares into a lesser number of Shares (each of such events being herein called a “**Share Reorganization**”) then effective immediately after the record date for such dividend or other distribution or the effective date of such subdivision, combination or consolidation, for each Option (a) the option price will be adjusted to a price per Share which is the product of (i) the option price in effect immediately before that effective date or record date; and (ii) a fraction, the numerator of which is the total number of Shares outstanding on that effective date or record date before giving effect to the Share Reorganization, and the denominator of which is the total number of Shares that are or would be outstanding immediately after such effective date or record date after giving effect to the Share Reorganization; and (b) the number of unissued option Shares will be adjusted by multiplying (i) the number of unissued option Shares immediately before such effective date or record date by (ii) a fraction which is the reciprocal of the fraction described in clause (a)(ii).

Whenever there is (a) a reclassification of outstanding Shares, a change of Shares into other shares or securities, or any other capital reorganization of the Company; (b) a consolidation, merger or amalgamation of the Company with or into another corporation resulting in a reclassification of outstanding Shares into other shares or securities or a change of Shares into other shares or securities; (c) an arrangement or other transaction under which, among other things, the business or assets of the Company become, collectively, the business and assets of two or more companies with the same shareholder group upon the distribution to the Company’s shareholders, or the exchange with the Company’s shareholders, of securities of the Company, or securities of another company, or both; or (d) a transaction whereby all or substantially all of the Company’s undertaking and assets become the property of another corporation; (any such event being herein called a “**Corporate Reorganization**”) the Optionee shall have an option to purchase (at the times, for the consideration, and subject to the terms and conditions set out in the Plan) and will accept on the exercise of such option, in lieu of the unissued option Shares which he would otherwise have been entitled to purchase, the kind and amount of shares or other securities or property that he would have been entitled to receive as a result of the Corporate Reorganization if, on the effective date thereof, he had been the holder of all unissued option Shares or if appropriate, as otherwise determined by the Board.

Amendments to the Plan

The Board may from time to time, subject to applicable law and to the prior approval, if required, of the shareholders, the Exchange or any other regulatory body having authority over the Company or the Plan, suspend, terminate or discontinue the Plan at any time, or amend or revise the terms of the Plan or of any Option granted under the Plan and the option agreement relating thereto, provided that no such amendment, revision, suspension, termination or discontinuance shall in any manner adversely affect any option previously granted to an Optionee under the Plan without the consent of that Optionee.

Board Discretion

The 2018 Option Plan provides that, generally, the number of shares subject to each option, the exercise price, the expiry time, the extent to which such option is exercisable and other terms and conditions relating to such option shall be determined by the Board.

4. The directors and officers of the Company be and are authorized and directed to perform such acts and deeds and things and execute all such documents, agreements and other writings as may be required to give effect to these resolutions.

Voting Recommendation:

VOTING INFORMATION AND INSTRUCTIONS

Who Can Vote

You are entitled to receive notice of and vote at the 2018 Meeting to be held on May 23, 2018 if you held Shares at the close of business on April 16, 2018 (the "**Record Date**").

How to Vote

You can vote by proxy or you can attend the Meeting and vote your Shares in person.

Voting by proxy is the easiest way to vote because you are appointing someone else (called your "**Proxyholder**") to attend the Meeting and vote your Shares for you.

There are different ways to submit your voting instructions, depending on whether you are a registered or beneficial (non-registered) shareholder.

Determine What Type of Shareholder You Are

There are several steps you must take in order to vote your Shares at the Meeting. For the purpose of voting at the Meeting, you must first determine what type of shareholder you are, a registered shareholder or a beneficial shareholder.

Registered Shareholder

You are a "**Registered Shareholder**" if your Shares are held in your personal name and you are in possession of a share certificate that indicates the same.

¹ Definition of Informed Person (as per National Instrument 51-102, Continuous Disclosure Obligations)

- (a) a director or executive officer of a reporting issuer;
- (b) a director or executive officer of a person or company that is itself an informed person or subsidiary of a reporting issuer;
- (c) any person or company who beneficially owns, directly or indirectly, voting securities of a reporting issuer or who exercises control or direction over voting securities of a reporting issuer or a combination of both carrying more than 10 percent of the voting rights attached to all outstanding voting securities of the reporting issuer other than voting securities held by the person or company as underwriter in the course of a distribution; and
- (d) a reporting issuer that has purchased, redeemed or otherwise acquired any of its securities, for so long as it holds any of its securities.

Beneficial (Non-registered) Shareholder

A majority of shareholders are non-registered. You are a “**Beneficial Shareholder**” if your Shares are:

- held in the name of a Nominee.
- deposited with a bank, a trust, a brokerage firm or other type of institution, and such Shares have been transferred out of your name.
- held either (a) in the name of the intermediary that the Beneficial Shareholder deals with (being securities dealers or brokers and trustees or administrators of self-administered RRSPs, RRIFs RESPs and similar plans); or (b) in the name of a clearing agency (such as the Canadian Depository for Securities Limited) with which your Nominee deals.

Follow the steps in the appropriate category below once you have determined your shareholding type. Please note that only Registered Shareholders or duly appointed Proxyholders are permitted to vote at the Meeting.

The Company will pay for an intermediary to deliver the meeting materials to non-registered shareholders who are “OBOs” as such term is defined in National Instrument 54-101 (*Communications with Beneficial Owners of Securities of a Reporting Issuer*) (“NI 54-101”), including a voting information form. The Company will not rely on the notice and access delivery procedures outlined in NI 54-101 to distribute copies of proxy-related materials in connection with the Meeting.

Registered Shareholder – Voting Instructions

You are a Registered Shareholder if you hold Shares in your name.

Voting by Proxy

John Hoey, or failing him, Teo Dechev, have agreed to act as the “**Mundoro Proxyholders**”.

You can appoint someone other than these Mundoro Proxyholders to attend the Meeting and vote on your behalf. If you want to appoint someone else as your Proxyholder, print the name of the person you want in the space provided. This person does not need to be a shareholder.

On any ballot, your Proxyholder must vote your Shares or withhold your vote according to your instructions and if you specify a choice on a matter, your Shares will be voted accordingly. The enclosed proxy form provides the Proxyholder with discretionary authority regarding amendments or variations to matters identified in the Notice of Meeting and any other matter that may properly come before the Meeting.

If you appoint the Mundoro Proxyholders but do not tell them how to vote your Shares, your Shares will be voted:

- **FOR** setting the number of Directors to four (4);
- **FOR** the nominated Directors listed on the proxy form and in this Information Circular;
- **FOR** re-appointing PricewaterhouseCoopers as the auditor and authorizing the Board to set the auditor’s remuneration; and
- **FOR** the adoption and approval of the 2018 Stock Option Plan.

This is consistent with the voting recommendations by the Board and Management. If you appoint someone other than the Mundoro Proxyholders to be your Proxyholder, that person must attend and vote at the Meeting for your vote to be counted.

A proxy will not be valid unless it is signed by the Registered Shareholder, or by the Registered Shareholder’s attorney with proof that they are authorized to sign. If you represent a Registered Shareholder who is a corporation or association, your proxy should have the seal of the corporation or association if required, and must be executed by an officer or an attorney who has written authorization. If you execute a proxy as an attorney for an individual Registered Shareholder, or as an officer or attorney of a Registered Shareholder who is a corporation

or association, you must include the original or a notarized copy of the written authorization for the officer or attorney, with your proxy form.

If you are voting by proxy, send your complete proxy by fax or mail to TSX Trust Company, the Company's tabulator. TSX Trust must receive your proxy by **10:00 a.m.** (Vancouver time) on **May 18, 2018** or two business days before the Meeting is reconvened if it is postponed or adjourned.

The chairman of the Meeting has the discretion to accept late proxy forms.

Attending the Meeting and Voting in person

Please complete the enclosed proxy even if you plan to attend the Meeting and vote in person. When you arrive at the Meeting, simply register with a representative from TSX Trust Company and indicate, if necessary, that you would like to revoke any proxy previously deposited and vote your Shares in person at the Meeting. If the Shares are in the name of a corporation, trust or fund, supporting documentation will be required to evidence authority to vote the Shares in person at the Meeting. The easiest way to represent Shares held in a corporation's name, fund or trust is to send in a proxy/voting instruction form appointing an individual to vote the Shares at the Meeting.

Changing Your Vote

You can revoke your proxy by sending a new completed proxy form with a later date, or a written note signed by you, or by your attorney if he or she has your written authorization. You can also revoke your proxy in a manner permitted by law.

If you represent a Registered Shareholder who is a corporation or association, your written note must have a seal of the corporation or association, and must be executed by an officer or an attorney who has their written authorization. The written authorization must accompany the revocation notice.

Send the signed written notice to:

1. The offices of the tabulator, TSX Trust Company, 301 - 100 Adelaide Street West, Toronto, ON M5H 4H1, at any time, not less than 48 hours, excluding Saturdays, Sundays and holidays, preceding the Meeting or any postponement(s) or adjournment(s) of the Meeting at which the proxy is to be used;
2. Mundoro's office on 1040 West Georgia Street, 15th Floor, Vancouver, B.C. V6E 2Y3, at any time up to and including the last business day preceding the day of the Meeting at which the proxy is to be used; or
3. The Chairman of the Meeting on the day of the Meeting or any postponement(s) or adjournment(s) of the Meeting. If you have sent in your completed proxy form and since decided that you want to attend the Meeting and vote in person, you need to revoke the proxy form before you vote at the Meeting.

Beneficial (non-registered) Shareholders – Voting Instructions

You are a beneficial (non-registered) shareholder if your Shares are registered in the name of:

- your bank, trust company, securities dealer or broker, trustee, administrator, custodian or other intermediary, who holds your Shares in a nominee account; or
- a clearing agency like Canadian Depository for Securities Limited.

Voting using the Voting Instruction Form

Sign and date the voting instruction form your intermediary sends to you, and follow the instructions for returning the form. Your intermediary is responsible for properly executing your voting instructions.

Attending the Meeting and Voting in Person

Follow the instructions on the voting instruction form from your intermediary which grants you the right to attend the Meeting and vote in person.

When you arrive at the Meeting, make sure you register with a representative from TSX Trust Company so your voting instructions can be taken at the Meeting.

Changing Your Vote

Contact your intermediary right away so they have enough time before the Meeting to arrange to change the vote and, if necessary, revoke the proxy.

Processing the Votes

Our tabulator, TSX Trust Company, or its authorized agents count and tabulate votes on our behalf.

Quorum

We need a quorum of shareholders to transact business at the Meeting. According to the Company's Articles, a quorum is two persons who are, or who represent by proxy, shareholders who, in aggregate, hold at least 5% of the issued Shares entitled to be voted at the Meeting. Voting persons are Registered Shareholders, their duly authorized representatives, or Proxyholders entitled to vote at the Meeting.

If a quorum is not reached within 30 minutes of the commencement of the Meeting, the Meeting will be adjourned to the same time and date of the following week (Wednesday, May 30, 2018 – 10:00 am). If a quorum is still not reached within 30 minutes of the commencement of the adjourned meeting, those present will constitute a quorum.

Proxy Solicitation

Proxies are being solicited by the Directors and management of Mundoro in connection with the Meeting. It is expected that the solicitation of proxies will be primarily by mail and may be supplemented by telephone, facsimile or other personal contact made, without special compensation, by the Directors and officers of Mundoro. Costs of the solicitation will be covered by the Company.

Board Independence

Mundoro has a majority independent Board, as three of four Directors are independent. Independence status is based on the standards set forth in National Instrument 52-110 ("**NI 52-110**") and other policies and standards as deemed necessary or relevant by the Board. The three independent Directors are Michael Calyniuk, John Hoey, and Graham Brown. In accordance with NI 52-110, Teo Dechev is precluded from being considered independent as she has a material relationship with, and is an Executive Officer (President and CEO) of, Mundoro.

Committees of the Board

The Board carries out its mandate directly or through its Committees, which are entirely comprised of independent Directors. Independence standards are detailed under *Independence of Directors* above.

The Board has constituted three committees of the Board, specifically the:

- Audit Committee;
- Compensation Committee; and
- Nominating and Corporate Governance Committee.

Each committee of the Board is re-constituted following the annual meeting of shareholders each year.

Audit Committee

The Audit Committee is comprised of three independent² and financially literate³ directors, namely:

- Michael Calyniuk (Chair)
- John Hoey
- Graham Brown

Relevant Education and Experience

Table 1 below sets out the education and experience of each member of the Audit Committee that is relevant to the performance of his responsibilities as an Audit Committee member.

The Audit Committee is guided by the Audit Committee Charter and is responsible for:

² To be considered independent, a member of the Audit Committee must not have any direct or indirect ‘material relationship’ with the Company. A material relationship is one which could, in the view of the Board, reasonably interfere with the exercise of a member’s independent judgment.

³ To be considered financially literate, a member of the Audit Committee must have the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised in the Company’s financial statements.

- Overseeing financial reporting, internal controls, the audit process and the Company's public disclosure as it relates to financial statements;
- Oversight of the Code of Business Conduct and Ethics;
- Recommendation of the appointment of the Auditor and review of the annual audit plan and Auditor remuneration;
- Pre-approval of audit, audit-related and tax services to be provided by the Auditor; and
- Reviewing our hiring policies for former employees in an audit or finance role and the terms of engagement for the Auditor.

The full text of the Audit Committee Charter can be found as Schedule "A" to this Information Circular and on Mundoro's website under *Our Company/Governance*.

Pre-Approval Policies and Procedures

The Audit Committee is responsible for pre-approving all non-audit services to be provided by the external auditor to the Company other than *de minimis* non-audit services referred to in Section 2.4 of NI 52-110. The Audit Committee also has the authority to engage independent legal counsel and other advisors as it determines necessary to carry out its duties and responsibilities.

In general, we seek to obtain non-audit services from our Auditor only when the services offered by our Auditor are more effective or economical than services available from other service providers, and, to the extent possible, only after competitive bidding. These determinations are among the key practices adopted by the Audit Committee effective during fiscal 2010. The Board has adopted policies and procedures for pre-approving work performed by our Auditor.

After careful consideration, the Audit Committee of the Board has determined that payment of the above audit fees is in conformance with the independent status of our Company's Auditor. Before engaging the Auditors in additional services, the Audit Committee considers how these services will impact the entire engagement and independence factors.

Reliance on Certain Exemptions

At no time since the commencement of the Company's most recently completed financial year has the Company relied on the exemption in section 2.4 (De minimis Non-Audit Services) of NI 52-110 or an exemption from NI52-110 granted under Part 8 thereof.

Retainers and Fees

Annual Board, committee chair and Board chair retainers are paid quarterly to each eligible independent Director. Absent a compelling reason, Directors are expected to be present at every meeting of the Board and committee (of which the Director is a member) each year. As Board members reside in many different geographic locations, a Director is considered in attendance regardless of whether they attend by phone or in person. Directors may be invited to attend committee meetings of committees which they are not members, in order to benefit from presentations or discussion.

Other Meeting Fee ²	700	700

Footnotes:

1. This fee is paid quarterly.
2. This fee is provided for each day the Director is required to attend business meetings on behalf of Mundoro and is paid upon completion of the meetings upon presentation of an invoice.
3. This travel fee applies per day for travel to and from meetings if required to attend from out of town to a maximum of one day within North America and two days outside of North America.
4. The meeting fee is a per diem fee. That is, if several meetings are held on one day, they will collectively count as one meeting.

Footnotes:

1. The fee structure is outlined in Table 2 above.

2. Ms. Dechev is an executive officer of Mundoro and therefore not an independent Director. As such, she does not receive any compensation as a Director. Please see Table 8 for information relating to Ms. Dechev's remuneration as an executive officer of Mundoro.
3. **Option-Based Award figures do not represent realization of capital gains. Presently, most of these options are underwater and have no monetary value, as detailed in Table 4.** Grant date fair value calculations are based on the Black-Scholes Option Pricing Model. Option-pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Changes in the underlying assumptions can materially affect the fair value estimates and therefore, in management's opinion, existing models do not necessarily provide a reliable measure of the fair value of the Corporation's share and option-based awards. The Black Scholes model was used to compute option fair values because it is the most commonly used option pricing model and is considered to produce a reasonable estimate of fair value. There is no difference between the fair value in accordance with the International Financial Reporting Standard 2 calculated by use of Black Scholes option pricing model and the amount accounted for on the date options were granted.

Specific Notes

1. The value of options vested in the fiscal year ended December 31, 2017 is calculated as if options had been exercised on their vest date in 2017 based on market price on the vest date of the options (Value (\$) = (# options vested in 2016 x market price on vest date in 2016) – (# options vested in 2017 x option exercise price).
2. The value of vested unexercised in-the-money options is calculated based on the close of market price on December 31, 2017. At December 31, 2017, the option exercise price was higher than the market price and as such all vested unexercised options were underwater.

General Notes:

- The market price at close-of-market on Friday, December 29, 2017 was \$0.13.

Share Ownership Guidelines

The Company does not have any Director Share ownership guidelines in place at this time.

CORPORATE GOVERNANCE

Management and the Board are committed to good governance practices. We are committed to high standards of legal and ethical conduct, and believe in the importance of full, accurate, clear and timely disclosure, and openly communicating with our various stakeholders. We comply with corporate governance guidelines and disclosure standards that apply to Canadian companies listed on the TSX-V and corporate governance guidelines that apply to us. As per National Instrument 58-101 (“NI 58-101”), Mundoro is pleased to provide shareholders with a synopsis of its corporate governance practices.

Board of Directors

Information regarding independence of Directors and directorships they hold in other public companies can be found under *Director Profiles*.

Nomination of Directors

The Board, either on its own or through the NCG Committee, considers the skills and attributes that would be required of a new Director. The Board has identified current Directors’ strengths and weaknesses (as a collective and as individuals) in various areas of skill, experience and competency and allows the Board to evaluate what competency areas are lacking or could be better represented on the Board. Members of the Board and representatives of the mineral exploration/production industry are consulted for possible candidates.

The Board has adopted, and shareholders have approved, an Advance Notice Policy that sets forth the procedures, including notice requirements, for nomination of a Director with respect to an annual general meeting or any special meeting of shareholders if one of the purposes for which the special meeting was called was the election of Directors.

Ethical Business Conduct

Code of Business Conduct and Ethics

The Mundoro Code of Business Conduct and Ethics (the “Code”) sets forth the standards of integrity, honor and ethical conduct that the Board and management of the Company expect of all Directors, officers, employees and contractors (collectively, the “Employees”) of the Company. Complying with the Code and maintaining high standards of business conduct are mandatory and the Board relies on the oversight of the Company’s internal controls to monitor compliance with the Code.

The Code addresses six key areas:

1. handling conflicts of interest, including transactions and agreements where a Director or executive officer has a material interest;
2. protecting and properly utilizing corporate assets;
3. keeping corporate information confidential;
4. treating Mundoro’s shareholders, employees, customers, suppliers and competitors fairly;
5. complying with laws, rules and regulations; and
6. reporting any illegal or unethical behavior.

Every Employee is required to read and sign a copy of the Code upon joining Mundoro. Signature indicates an Employee has understood the Code and agrees to abide by it during their relationship with Mundoro. The goal of the Board and the Company is to ensure all Employees are both aware, and in understanding, of the Code, its seriousness and their responsibilities. The Code was originally adopted in April 2008 and most amended on January 7, 2015. The Code is reviewed on an annual basis by the NCG Committee and the Board.

Whistleblower Policy

In addition to, and to support the Code, the Board has approved and adopted a Whistleblower Policy and a Disclosure, Confidentiality and Insider Trading Policy. The Company has established a separate whistleblower email for the Chair of the Audit Committee available for Employees to use to report violations of the Code in a confidential and safe manner. Any reports of misconduct under the Code would ultimately be communicated to the Audit Committee. The Board is not aware of any waivers or instances of unethical conduct of any Employees under the Code in the preceding year and as such no material change reports to that effect have been filed. The Chair of the Audit Committee would report to the Auditors regarding any known or suspected fraudulent activities of any Employees of the Company. Management applies the highest standard of ethical behavior and sets the tone from the top for a culture of ethical business conduct.

A copy of the Code, along with the Whistleblower Policy and the Disclosure, Confidentiality and Insider Trading Policy, are available on Mundoro's website under *Our Company/Governance* and by contacting the Company's Corporate Secretary.

Conflicts of Interest

Certain of the Directors of Mundoro also serve as Directors or officers, or have significant shareholdings in, other companies involved in mineral property investments and, to the extent that such other companies may participate in ventures which Mundoro may participate in, a conflict may arise. The Company expects that any decision made by any of such Directors and officers will be made in accordance with their duties and obligations to deal fairly and in good faith with a view to the best interests of the Company and its shareholders, but there can be no assurance in this regard. In addition, each of the Directors is required to declare and refrain from voting on any matter in which such Directors may have a conflict of interest in accordance with the procedures set forth in applicable laws.

Orientation and Continuing Education

New Director Orientation

Mundoro has not yet developed an official orientation and training program for Directors, however when new Directors join the Board, they are briefed on the Company's strategy and operations in their initial meeting with other Directors, a meeting with the CEO, reviewing relevant reports on company projects, governance policies and other such relevant information as required.

Director Education

Directors remain up to date on governance matters by attending educational sessions on topics of interest or concern to directors organized by various third parties such as the Institute of Corporate Directors, local accounting firms and others. Directors may attend externally organized educational sessions at the expense of the Company. Committee members are encouraged to attend courses or seminars directly related to the duties of their committees. Various Directors have participated in outside education sessions, some of which include but are not limited to the following topics:

- the National ICD Conference;
- various monthly seminars presented by the British Columbia ICD Chapter;
- Public accounting firms' seminar updates for directors in the area of current issues with regard to accounting, auditing, and regulatory issues;
- Law firms' seminar updates in areas of current issues with regard to industry and regulatory issues.

Compensation

Please see: (1) *Compensation Approval Process* for information relating to the process of determining compensation for Officers of Mundoro, and (2) *Non-Executive Director Compensation* for information relating to

the Company's Compensation Committee and Independent Director Compensation. Information on the compensation philosophy of the Company, industry benchmarking and other items related to compensation can be found under *Compensation Overview* below.

Board Evaluations

The board undergoes an annual assessment designed to determine the effectiveness of the board, the committees of the board and the individual directors. This assessment consists of an evaluation questionnaire, reviewed annually, and designed to encourage candid feedback on the effectiveness and contribution of individual directors, the committees, the board and management. Upon completion of the written questionnaire, the Chairman, or external counsel, tabulates the results and provides report to the NCGC. The NCGC is responsible for the review of the survey results and makes recommendations to the board regarding the assessment and the results.

Site visits

In October 2017, the directors visited our operations in Serbia. During this visit, meetings with local management and visits to the projects were arranged to confirm that site practices were aligned with corporate reporting.

Diversity

We support diversity at all levels of the organization, including the board of directors. The NCGC considers diversity when evaluating new candidates for director and executive positions. The board has not adopted a written policy relating to the identification and nomination of women directors or executive officers or set specific minimum targets for board or executive officer composition at this time. The board believes that each potential nominee should be evaluated based on his or her individual merits and experience, taking into account the needs of the company and the current composition of the board and management team, including the current level of representation of women in such positions.

STATEMENT OF EXECUTIVE COMPENSATION

Compensation Philosophy

In a competitive industry, and as a junior exploration company, it can be difficult to attract and retain qualified, highly skilled, experienced individuals. We believe that to be successful in attracting and retaining great talent, we must provide a competitive and relevant compensation package that:

- aids in the motivation and encouragement of performance with the ultimate goal of increasing stakeholder value;
- recognizes the competitive standards of the mineral resources industry;
- reflects the scope and responsibilities of the individual and the comparison of those elements with others in similar positions and with similar responsibilities in our industry;
- aligns executives' interests with shareholder interests and the long-term success of the Company; and
- acknowledges and abides by the reporting requirements of securities and corporate governance regulators promoting clear and transparent disclosure and thereby earning and maintaining the trust of our shareholders.

Compensation Advisors and Industry Benchmarking

Periodically, outside advisors are engaged to review the adequacy of the compensation package of our Officers and Directors. Benchmarking analysis compares, our pay levels and compensation practices with others in the

industry and/or market in which we compete for talent. This provides valuable information that will allow us to make adjustments, if necessary, to attract and retain the best individuals to meet our needs as a company and in providing value to our shareholders.

In late 2013, the Company engaged IntierraRMG (“**IRMG**”), an independent firm, to provide analysis of elements of compensation for Mundoro's industry peers. The purpose was to update a March 2012, report by Mercer (Canada) Limited (“**Mercer**”), which compared competitiveness of the Company’s compensation practices against a peer group of 13 mining companies (the “**Peer Group**”). The IRMG report updated Mercer's analysis and broadened the Peer Group to 28 Canadian-listed, junior mineral resources companies with operations in similar stages of exploration, complexity, management experience, international focus, market capitalization and financial circumstances. Based on the analyses of both the Mercer and IRMG reports, the Board believes the compensation strategy of the Company is in line with industry practices. In 2014, 2015, 2016 and 2017, the Company did not engage an independent compensation consultant for director and officer compensation and instead annually update the compensation comparison tables for comparable companies in exploration.

The Compensation Committee of the Company is responsible for engaging independent advisors and for making recommendations to the Board with respect to Director and executive officer compensation based on the results of the compensation consultants’ findings, but also on other appropriate and important factors and considerations they as a committee feel should influence the compensation packages proposed and offered to the officers and directors of the Company.

As part of Mundoro’s ongoing budget reviews and goal to reduce corporate costs the Board, on December 15, 2015, approved a 30% reduction in the Chief Executive Officer salary and board fees effective January 1, 2016. To date in 2018, the salary of the CEO and the board fees remain unchanged from the rate set in January 2017.

Executive Compensation-Related Fees

There are no executive and director compensation related fees for third party consultants in 2017.

Compensation Objectives

Mundoro’s goal is to provide competitive compensation packages in line with industry standards and the activity and scope of the Company. The Company’s compensation program includes two components: base salary and long-term incentives in the form of stock options.

Key Elements of Compensation

The key elements of Mundoro’s compensation packages are outlined in Table 6 and explained in more detail below.

Table 6: Key Elements of Compensation

Elements	Form	Performance Period
Base Salary	Cash	1 year
Long-term incentives	Stock Options	Greater than 1 year

Base Salary

Base salary is the amount of compensation paid before adding allowances, incentives or bonuses. It recognizes the contribution of employees, level of experience, education and abilities, while remaining competitive in the market place and mindful of the size and development stage of the Company. Base salary for each employee and executive officer’s position is primarily determined with regard for the employee’s responsibilities, individual performance, overall corporate performance, and through the assessment of the market environment, conditions and competitiveness using (in the case of executive officers) independently published compensation surveys.

Long-term Incentives - Stock Options

The Board may, from time to time, grant stock options to Employees under the Company's 2011 Amended and Restated Stock Option Plan (the "**Plan**"). Grants are intended to encourage commitment to the Company's growth and the enhancement of shareholder value and to reward optionees for the Company's performance through appreciation in Share value. The size of individual stock option awards to employees and contractors is reviewed, determined and approved by the Board. In the case of executive officers and Directors of the Company the option award is reviewed and approved by the Compensation Committee and then by the Board.

The Board considers the following criteria in awarding options to an individual:

- current and expected future performance;
- level of responsibility and authority;
- overall importance of the person and position to the current welfare of the Company;
- the degree to which each employee's long-term potential and contribution will be key to the longer-term success of the Company; and
- the number and term of outstanding options already granted (and either held, exercised or expired) to an employee or executive.

The number of Shares which may be subject to option in favor of any one individual is limited under the terms of the Plan and cannot be increased beyond such specified limit without shareholder and stock exchange approval. The principal terms of the Company's Plan are described below.

Stock Option Plan

The Company currently has a stock option plan that was approved by the Shareholders of Mundoro on May 27, 2011 (the "**2011 Stock Option Plan**"). The 2011 Stock Option Plan allows the Company to issue options that upon exercise will be less than or equivalent to the lesser of (a) a rolling number of common shares equal to 10% of the total issued and outstanding common shares of the Company from time to time; and (b) 5,000,000 common shares. As at the date of this Information Circular, a total of 4,170,000 options, representing 6.02% of the Shares of the Company (and 83.4% of the Plan reserve) have been granted. There are 830,000 options available for grant under the 2011 Stock Option Plan.

At the meeting the shareholders are being asked to replace the 2011 Stock Option Plan with a "rolling" stock option plan whereby the number of shares which may be reserved for issuance under the plan is limited to 10% of the issued and outstanding shares of the Company as at the date of the grant of Options. For more particulars about the new plan refer to *Adoption and Approval of 2018 Stock Option Plan* herein.

Options Outstanding and Shares Reserved for Issue

Table 7 below details the Company's compensation plans under which equity securities are authorized for issuance at December 31, 2017, the end of the Company's most recently completed fiscal year.

Table 7: Securities Authorized for Issuance Under Equity Compensation Plans at December 31, 2017

(b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity Compensation Plans approved by shareholders	4,332,500	\$0.18	667,500
Equity compensation plans not approved by shareholders	N/A	N/A	N/A
Total	4,332,500		667,500

1. For information regarding outstanding options available as at the April 16, 2018 record date please refer to the section titled *Stock Option Plan* herein.

Restricted Share Unit Plan

The Company has a Restricted Share Unit (“RSU”) Plan that was enacted in 2008 and amended in 2009. The RSU plan promotes share ownership in the company and serves as a retention incentive for our directors and officers. The value of RSUs redeemed is dependent on the share price at the time of redemption, which can be higher or lower than the value reported at the time of grant, linking our directors and officer’s experience to that of our shareholders. RSU awards typically vest in three tranches over three years.

There are currently no RSUs authorized or issued under such plan.

Consideration of Risks in Compensation Practices

The Board reviews the risks, if any, associated with the Company's compensation practices and in 2012 as part of such undertaking, engaged Mercer, and IntierraRMG in 2013 (as further described above under *Compensation Advisors and Industry Benchmarking*) to further review its compensation practices. To date the Company has not identified any risks arising from its compensation practices that are reasonably likely to have an adverse material effect on the Company.

Purchase of Financial Instruments

No Director or NEO is permitted to purchase financial instruments that are designed to offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the NEO or Director.

Compensation Approval Process

The Compensation Committee reviews the appropriateness of compensation against market (as described above in *Compensation Advisors and Industry Benchmarking*). Base salaries of existing and required staff are budgeted for on an annual basis. The CEO is responsible for approving new hires and their remuneration packages, as well as any base salary adjustments for existing employees and contractors.

In the case of executive officers, the Compensation Committee undertakes the review of remuneration and as described above may seek the input of an independent compensation advisor for input and further independent oversight in reviewing the appropriateness of compensation against market (as described above in *Compensation Advisors and Industry Benchmarking*), and to supplement the skills and experiences of the committee members. Recommendations for approval of amendments to an executive officer’s compensation may be made by the CEO

to the committee for review. Compensation Committee recommendations are then presented to the Board for their further review and if appropriate, approval. The Compensation Committee reviews and determines the remuneration of the CEO and recommends the same to the Board for further approval.

Directors' and Officers' Liability Insurance

The Company has purchased directors' and officers' liability insurance ("**D&O Insurance**") and has, in addition, agreed to indemnify Directors and officers of the Company against all costs, charges and expenses reasonably incurred by them in respect of certain proceedings to which they may be made party by reason of their status as Directors or officers of the Company. The indemnification is extended to Directors and officers provided they have acted honestly and in good faith with a view to the best interests of the Company and, in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, on the condition the Director or officer had reasonable grounds for believing his conduct was lawful. Mundoro maintains D&O Insurance on behalf of its Directors and officers.

Pension Plan

The Company does not have a pension plan benefit program in place. Therefore, there were no payments or benefits in connection with a defined benefit or a defined contribution plan offered to NEOs during the Company's most recently completed financial year.

Executive Compensation

The Company had three Named Executive Officers ("**NEOs**") for the year-ended December 31, 2017:

Ms. Teo Dechev	President, Chief Executive Officer (CEO) & Director
Mr. Anil Jiwani	Chief Financial Officer (CFO) since April 19, 2017

Ms. Dechev's biography can be found in the Director Profiles section of this Information Circular and our website under *Company/Our Team*.

Mr. Jiwani's biography can be found on our website under *Company/Our Team*.

Mr. Magaranov was appointed Senior Exploration Manager in December 2011. Mr. Magaranov's biography can be found on our website under *Company/Our Team*.

Footnotes:

- Salary of Ms. Dechev for calendar 2016 is a reduction of salary by 30% from calendar 2015 effective January 1, 2016.
- Mr. Magaranov provides services to the Company through Geological Services Inc.
- Mr. Anil Jiwani was appointed as CFO on April 19, 2017 and provides part time CFO services to the Company.
- Mr. Tom Wilson resigned as CFO on April 19, 2017. He provided CFO services to the Company on a part-time basis.
- Option-Based Award figures do not represent realization of capital gains.** Presently, most of these options are not-in-the-money and have no monetary value, as detailed in Table 9. Grant date fair value calculations are based on the Black-Scholes Option Pricing Model. Option-pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Changes in the underlying assumptions can materially affect the fair value estimates and therefore, in management's opinion, existing models do not necessarily provide a reliable measure of the fair value of the Company's share and option-based awards. The Black Scholes model was used to compute option fair values because it is the most commonly used option pricing model and is considered to produce a reasonable estimate of fair value. There is no difference between the fair value in accordance with the International Financial Reporting Standard 2 calculated by use of Black Scholes option pricing model and the amount accounted for on the date options were granted.

Specific Notes

- The value of options vested in the fiscal year ended December 31, 2016 is calculated as if options had been exercised on their vest date in 2016 based on market price on the vest date of the options (Value (\$) = (# options vested in 2016 x market price on vest date in 2016) – (# options vested in 2016 x option exercise price).
- The value of vested unexercised in-the-money options is calculated based on the close of market price on December 31, 2016. At December 31, 2016, the option exercise price was higher than the market price and as such all vested unexercised options were underwater.

General Notes:

- The market price at close-of-market on Friday, December 29, 2017 was \$0.13.
